On behalf of the Board of Trustees of the National Provident Fund, set out below is a report on the performance and activities of your Scheme for the year ended 31 March 2024. Further information on the National Provident Fund's activities, and commentary on investment markets, is set out in the Chair's letter.

## Your Scheme

### CROWN GUARANTEE

The Lump Sum National Scheme is a defined contribution scheme. The benefits payable by your Scheme are guaranteed by the Crown.

### LOCKED-IN SECTION

The Locked-in section of the Scheme was created on 1 July 2007 as an alternative to KiwiSaver schemes. The Locked-in section has many of the benefits of KiwiSaver schemes and also has the Crown guarantee and the 4% pa minimum earnings rate. These two features are hallmarks of the NPF defined contribution schemes and are not available with KiwiSaver schemes. Further details are available on our website – [www.npf.co.nz](http://www.npf.co.nz).

### INVESTMENT PERFORMANCE

The asset class returns (before tax and expenses), and the comparative performance of the benchmark indices are shown in the table below.

Asset Class	Return	Index
Fixed interest (global)	5.17%	3.80%
New Zealand shares	4.68%	2.75%
Overseas shares	32.45%	26.53%

The investment return (after tax and expenses) earned by the Scheme, for the year ended 31 March 2024, was 13.26% (2023: (1.91%)). In dollar terms, this represents investment gain of \$65.6 million (2023 investment loss: \$9.3 million).

## Annual Report for the year ended 31 March 2024

### SUMMARY FINANCIAL STATEMENTS

The summary financial statements included in this Annual Report have been extracted from the full financial statements for the year ended 31 March 2024.

The summary financial statements cannot be expected to provide as complete an understanding as the full financial statements.

Members are welcome to view the full financial statements on our website – [www.npf.co.nz/members/schemes](http://www.npf.co.nz/members/schemes) – or contact the Scheme administrator, Datacom (see details on back page), for a free copy of the Scheme's full financial statements.

## INVESTMENT PERFORMANCE CONTINUED

This year was generally a good one for financial markets, in particular for the global equities asset class which performed very strongly. Inflation and high interest rates remained key influences on markets throughout the year. While the markets have performed well, getting inflation back to the levels seen before 2022 remains a challenge. The Board continues to monitor the impact of movements in the market, and the implication for investment strategy on an ongoing basis.

See the 10 year comparison page for the key statistics of your Scheme over the last 10 years. For an overview of the financial performance of the Scheme, refer to the summary financial statements on the following page.

## EARNINGS RATE

The earnings rate declared by the Board for the Scheme for the year ended 31 March 2024 was 8.47% on contributors' total credits as at 1 April 2023, and 3.4% on contributions paid during the year. This is in line with the Board's crediting and reserving policy. As at 31 March 2024 reserves were 4.9% of contributors' total credits (2023: Nil).

The objective of the Board's crediting and reserving policy is to build the reserves back up to 10% of contributors' total credits. An equitable share of any positive reserves is added to a contributor's total credit on retirement, withdrawal through redundancy or permanent incapacity, or on death before the contributor has commenced receiving a benefit.

Where a person re-establishes contact with the Board within 15 years of the liabilities to that person being extinguished, the person is reinstated as a member of the Scheme.

### CONTRIBUTIONS AND BENEFIT PAYMENTS

As at 31 March 2024, there were 1,841 members in the Scheme (2023: 2,000), with allocated contributors' total credits of \$533.7 million (2023: \$507.9 million). These numbers include the members of the Locked-in section.

For the Locked-in section, as at 31 March 2024 there were 119 members (2023: 126) with allocated contributors' total credits of \$20.0 million (2023: \$18.7 million). There were 7 retirements from the Locked-in section during the year to 31 March 2024. The total value of assets withdrawn from the Locked-in section of the Scheme during the year was \$944,636.

On the basis of evidence available, the Board believes all contributions required to be made to the Scheme, in accordance with the terms of the Scheme Trust Deed, have been made.

The Board certifies, to the best of its knowledge, all benefits required to be paid from the Scheme were paid in accordance with the terms of the Scheme Trust Deed.

The Board, based on the advice of the Actuary, certifies that as at 31 March 2024 the market value of the net assets of the Scheme exceeded the total value of the vested benefits of the Scheme. The amounts are shown in Note 13 to the financial statements.

The Board confirms, to the best of its knowledge, not more than 10 percent of the net market value of the Scheme's assets were invested with employers (or associated entities), either directly or indirectly, who are parties to the Scheme.

### FEES

Scheme administration fees are apportioned on fee per member and fee per transaction bases and are charged to the Scheme as a whole. As at 1 April 2023 and 2024 the Scheme administration fees were increased for inflation.

The Board certifies it is satisfied the increase in the administration fees for the Scheme is not unreasonable. The Board is satisfied the total management fees charged to the Scheme are not unreasonable.

### TRUST DEED AMENDMENT

The Scheme Trust Deed has not been amended since 6 July 2023, being the date of the Scheme's last annual report. A copy of the Trust Deed is available on request.
